Chief Executive Officer

Place: Mumbai

Message from Chairman

It is my pleasure to present the Annual Report for FY 2023-24, highlighting the transformative impact and significant achievements of the Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE). As India's first and leading credit guarantee organization, CGTMSE continues to play a pivotal role in fostering the growth and development of the Micro & Small Enterprise (MSE) sector, a backbone of the nation's economy.

For 24 years, CGTMSE has empowered MSEs by facilitating credit assistance without requiring collateral or third-party guarantees, ensuring greater access to finance and reducing the risks associated with lending. Our work directly contributes to the economic dynamism of India, promoting exports, fostering innovation and enabling MSEs to thrive in an increasingly competitive global landscape.

FY 2023-24 has been a landmark year for CGTMSE, marked by significant milestones. During this period, 17,24,073 guarantees amounting to ₹ 2,02,807 crore were approved, reflecting an unprecedented 94% growth compared to 11,65,786 guarantees worth ₹ 1,04,781 crore in the previous year. Cumulatively, guarantee approvals since inception reached ₹ 6.29 lakh crore, with nearly one-third of this total achieved in the past year alone. Notably, 58% of the cumulative guarantees were approved in just the last three years period. This remarkable achievement demonstrates CGTMSE's crucial role in fostering a supportive environment for MSEs and underscores the positive impact of credit guarantee schemes in empowering the MSEs. Additionally, our collaborations with seven State Governments have further enhanced guarantee coverage, addressing region-specific needs and challenges faced by MSEs.

Globally, credit guarantee schemes have proven to be critical enablers of financial inclusion. Institutions such as

the Small Business Administration (SBA) in the United States, KOTEC in South Korea, Japan Finance Corporation (JFC) have long championed the cause of small businesses. CGTMSE has a larger scale and coverage than any of these institutions. Like some of its international peers, CGTMSE is evolving in its approach, focusing on technology-driven service delivery to ensure operational efficiency and accessibility.

As India's economic landscape evolves, CGTMSE is poised to deepen its impact. CGTMSE remains committed to expanding the scope of its guarantee schemes while extending its reach to areas that remain unserved or underserved. This vision is guided by strategic priorities, including the integration of technology to streamline processes and ensure seamless service delivery. The Trust is also focused on launching new schemes, refining schemes to address the needs of emerging sectors, women entrepreneurs and businesses in remote areas, thereby promoting equitable access to finance. Additionally, CGTMSE aims to support MSEs in embracing sustainable practices and building resilience against economic uncertainties.

Aligned with India's "Viksit Bharat" mission, CGTMSE remains committed to fostering a resilient and self-reliant MSE ecosystem, which is indispensable to the nation's economic and social progress.

I would like to thank the Ministry of MSME, Government of India, the Reserve Bank of India (RBI), the Small Industries Development Bank of India, Indian Bank's Association (IBA), Board Members, Member Lending Institutions and MSE Industry Associations for their continuous support to the endeavours of CGTMSE.

As we step into the next financial year, marking the 25th year of CGTMSE's unwavering service to the nation, we are excited to celebrate this significant milestone with initiatives that reflect our commitment to the growth and success of MSEs. The year ahead will feature dedicated programs, outreach events, enhanced support mechanisms, and collaborative efforts to further empower entrepreneurs and strengthen the MSE ecosystem. Together, we will continue to empower MSEs and advance towards a prosperous, inclusive and developed India.

MSME Sector: Overview & Growth Prospect

Overview

Micro, Small and Medium Enterprises (MSMEs) play a crucial role in the global economy, accounting for 90% of businesses, 60 to 70% of employment, and 50% of GDP worldwide, according to the United Nations.

In India, the MSME sector is a vibrant and dynamic part of the economy, fostering entrepreneurship and generating self-employment opportunities at a comparatively lower capital cost, second only to agriculture. With India's burgeoning population and growing urbanization, MSEs have become essential in driving inclusive growth, particularly in rural and semi-urban regions. The MSE sector contributes approximately 30% to India's GDP, making it a critical segment of the national economy.

”

We are betting on the entrepreneurial zeal of our youth to propel our economy to even greater heights

- **Shri Narendra Modi**
Hon'ble Prime Minister
March 2023

“

The Ministry of MSME, Government of India, promotes the growth and development of this sector through various schemes and programs. These initiatives encompass credit support, technological assistance, infrastructure development, skill development and training, enhancing competitiveness, and market assistance.

Every June 27th, the world celebrates MSME Day. In 2024, India celebrated "Udyami Bharat" to toast to the role of MSMEs in India's economic landscape.

As on March 31, 2024, a total number of 4.15 crore MSME, including IME on UAP are registered. There are 80 lakh enterprises registered in Manufacturing category, 1.48 crore enterprises registered in Service sector and 1.86 crore enterprises registered in Trading category.

The MSME sector has created about 110 million jobs, including about 36 million in manufacturing, about 38 million in trade and about 36 million in other services,

according to the 2022-2023 annual report by the Ministry of MSME. That indicates that there is a powerful role the MSME sector plays in providing employment opportunities at much lower capital costs, while, also, industrializing rural and backward areas and pushing for a more equitable distribution of national income.

Government Initiatives

The Government of India has implemented a robust array of initiatives aimed at bolstering the Micro and Small Enterprises (MSE) sector, recognizing its pivotal role in the economy. These efforts range from financial support and procurement policies to capacity building and market integration. Key initiatives include the Udyam Registration Portal, PM Vishwakarma Scheme, PMEGP, SFURTI and the Public Procurement Policy for MSEs, all aimed at fostering entrepreneurship, enhancing employment and integrating informal sectors into the formal economy. These initiatives reflect the government's commitment to supporting MSEs and driving inclusive economic growth nationwide.

1. PM Vishwakarma - The 'PM Vishwakarma' scheme, launched by the Government of India, aims to enhance the quality and reach of products and services by artisans and craftspeople, integrating them into domestic and global value chains. Launched on September 17, 2023, this scheme seeks to provide comprehensive support to Vishwakarmas, improving their socio-economic status and quality of life. Registered applicants will undergo a 5-day 'Basic Training' program, and those opting for credit support will receive collateral-free credit.

2. Udyam Registration Portal - The Udyam Registration Portal was launched on July 1, 2020 to facilitate registration for existing enterprises across the country. This online portal is free of cost, paperless and based on self-declaration, eliminating the need for document uploads. Moreover, on November 11, 2023, the Government introduced the Udyam Assist Platform to integrate informal micro-enterprises into the formal sector. This initiative aims to enable these enterprises to access benefits under Priority Sector Lending, thereby enhancing their growth and sustainability.

3. Prime Minister's Employment Generation Programme (PMEGP) - Prime Minister's Employment Generation Programme (PMEGP) is a credit linked subsidy scheme for providing employment opportunities through establishment of micro-enterprises in the non-farm sector. Under the Scheme, Margin Money (Subsidy) is provided to beneficiaries availing loan from banks for setting up new enterprises. In the year 2023-24 alone, PMEGP facilitated the establishment of 22,050 projects.

4. Scheme of Fund for Regeneration of Traditional Industries (SFURTI) - The main objective of the scheme is to organize the artisans and traditional industries into clusters for better competitiveness, for enhancing employment opportunities and to increase marketability of products of such clusters.

5. Public Procurement Policy for Micro and Small Enterprises - The Ministry of MSME, Government of India notified the Public Procurement Policy for Micro and Small Enterprises (MSEs), Order, 2012, mandates 25% purchase from MSEs, including 4% from MSEs owned by SC/ST and 3% from MSEs owned by Women entrepreneurs. A total of 358 items are reserved for exclusive procurement from MSEs. In 2023-24, Central Ministries/ Departments/ Central Public Sector Enterprises (CPSEs) and departments procured a total of Rs. 82,431 crore (33.30%) from MSEs. A total of 2,36,452 MSEs benefitted from this procurement.

6. Scheme / Policy Support

- a. Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE) mitigate risks for lenders, promoting credit flow to MSEs.
- b. Programs like "Digital MSME," "Zero Defect Zero Effect (ZED)," and the "Make in India" initiative encourage digitalization, quality improvement, and sustainable practices among MSEs.

Outlook

The future of Micro and Small Enterprises (MSEs) in India appears promising, underpinned by strong government support, technological advancements, and rising global integration. The rapid adoption of

digital payment solutions and e-commerce platforms is expected to enhance market reach for MSEs, especially those in rural and semi-urban areas. Digital platforms will enable them to cater to a larger, even global customer base, promoting scalability. The emergence of sectors like renewable energy, biotechnology, and fintech presents opportunities for innovative MSEs to participate in knowledge-driven and sustainable industries.

With continued support from government credit guarantee schemes, such as CGTMSE, and its continuous reforms, MSEs are expected to have more accessible and affordable finance options. Other government schemes like the Start-up India initiative and Stand-Up India encourage entrepreneurial ventures, especially among women and marginalized communities. This will drive the establishment of new MSEs across the country. With an increasingly favourable ecosystem, the sector is set to play a transformative role in India's economic aspirations, particularly as a source of sustainable growth, innovation and social inclusion.

India's MSE sector has strong growth prospects due to government support, digitalization, and rising global opportunities. The continued focus on financial inclusion, skill development and digital transformation will enhance the sector's productivity and competitiveness, contributing to India's growth story, economic resilience and job creation. With favourable policies and investments, MSEs have the potential to become a driving force in achieving India's \$5 trillion economy goal by 2025.

Embracing the future, our journey continues

CGTMSE's initiatives have experienced remarkable growth in recent years, aligning with the strong economic expansion and further strengthening the Micro and Small Enterprises (MSEs) sector to become more resilient and competitive. In FY 2024, CGTMSE achieved a historic milestone by approving guarantees over ₹ 2 lakh crore for the first time, enabling more than 17 lakh units to access credit without the need for collateral. Notably, since its inception, CGTMSE has approved cumulative guarantees of ₹ 6.29 lakh crore, with approximately one-third of this secured just in the last year alone.

This remarkable growth stems from various policy and operational reforms introduced from time to time and Government support through guidance and corpus infusion. These reforms have facilitated a greater flow of credit to MSEs positioned at the base of the economic pyramid.

As India continues to experience economic expansion, the demand for credit among MSEs is expected to rise. CGTMSE will play a crucial role in facilitating access to this credit, especially for those without adequate collateral. There will be opportunities for new product offerings, streamlined processes and enhanced outreach, particularly to underserved sectors.

By adopting digital platforms, CGTMSE has already automated various processes, reduced manual intervention and streamlined its operations. By

embracing digitalization, CGTMSE is further focused on enhancing its operational efficiency, improving accessibility and providing a superior user experience, determined to increase credit flow to MSEs. CGTMSE intends to utilize data analytics to gain insights into trends, risks and opportunities in the MSE sector. This information will enable informed decision-making and allow for the customization of product to better address the needs of different segments.

CGTMSE aims to enhance collaboration with banks/ other financial entities and various State Governments to ensure the effective implementation of guarantees, encouraging greater participation from lenders in the program.

With sustainability gaining importance, CGTMSE also plans to promote financing for environmentally friendly projects and businesses that follow sustainable practices, aligning with global sustainability goals.

The future of CGTMSE is poised for growth as it adapts to the evolving landscape of the MSE sector in India. With continued government support, focus on digital transformation and emphasis on inclusivity and sustainability, CGTMSE is well-positioned to enhance its impact, empower more MSEs and contribute significantly to the country's economic development. Its role as a facilitator of credit will be crucial in driving innovation, entrepreneurship and job creation in the years to come.

CGTMSE: A Silent Force-Multiplier

The CGTMSE (Credit Guarantee fund Trust for Micro and Small Enterprises) was jointly setup by the Ministry of MSME, the Government of India and SIDBI. Its goal is to catalyze the flow of institutional credit to MSEs, strengthen credit delivery system, create access to finance for unserved, underserved and underprivileged & support availability of finance from conventional lenders to new-generation entrepreneurs. Since its inception in July 2000, the CGTMSE is said to have been instrumental in providing guarantee cover to collateral and third-party guarantee-free credit facilities extended by eligible Member Lending Institutions (MLIs) to MSE borrowers.

Facilitating Growth through range of Schemes

CGS-I SCHEME FOR BANKS & FINANCIAL INSTITUTIONS:

The Scheme is operated through Banks/LIs (Lending Institutions). There would be a Credit Guarantee up to ₹ 5 crore for the credit facilities extended by MLI to MSEs without collateral security & third party guarantee. An unsecured portion of the Credit facilities with partial collateral security can be covered under a separate product called "Hybrid Security Model". There would be special Benefits in terms of discounts in fee & higher coverage are available to segments such as women entrepreneurs/ SC/ST entrepreneurs/MSEs situated in aspirational districts/ZED-certified MSEs/ individuals with disabilities/ MSEs promoted by "agniveers" and more.

CGS-II SCHEME FOR NBFCs:

Recognizing the vital role NBFCs play in the MSE ecosystem, a dedicated Credit Guarantee Scheme (CGS-II) was devised specifically for NBFCs, aiming to streamline and facilitate convenient access to credit for the MSE sector. The scheme was launched in January 2017. NBFCs contribute to the financial system by augmenting accessibility, fostering innovation and addressing the diverse financial needs of businesses, especially those in underserved or specialized sectors.

CREDIT GUARANTEE SCHEME FOR CO-LENDING (CGSCL):

The "Co-Lending Model" introduced by the RBI focuses on improving the flow of credit to the unserved and underserved sector of the economy and making available funds to the ultimate beneficiary at an affordable cost, considering the lower cost of funds from banks and greater reach of the NBFCs. In February 2022, the CGTMSE launched a Credit Guarantee Scheme for Co-lending (CGSCL) to extend the guarantee coverage to credit facilities under Co-Lending Model jointly by Banks and NBFCs.

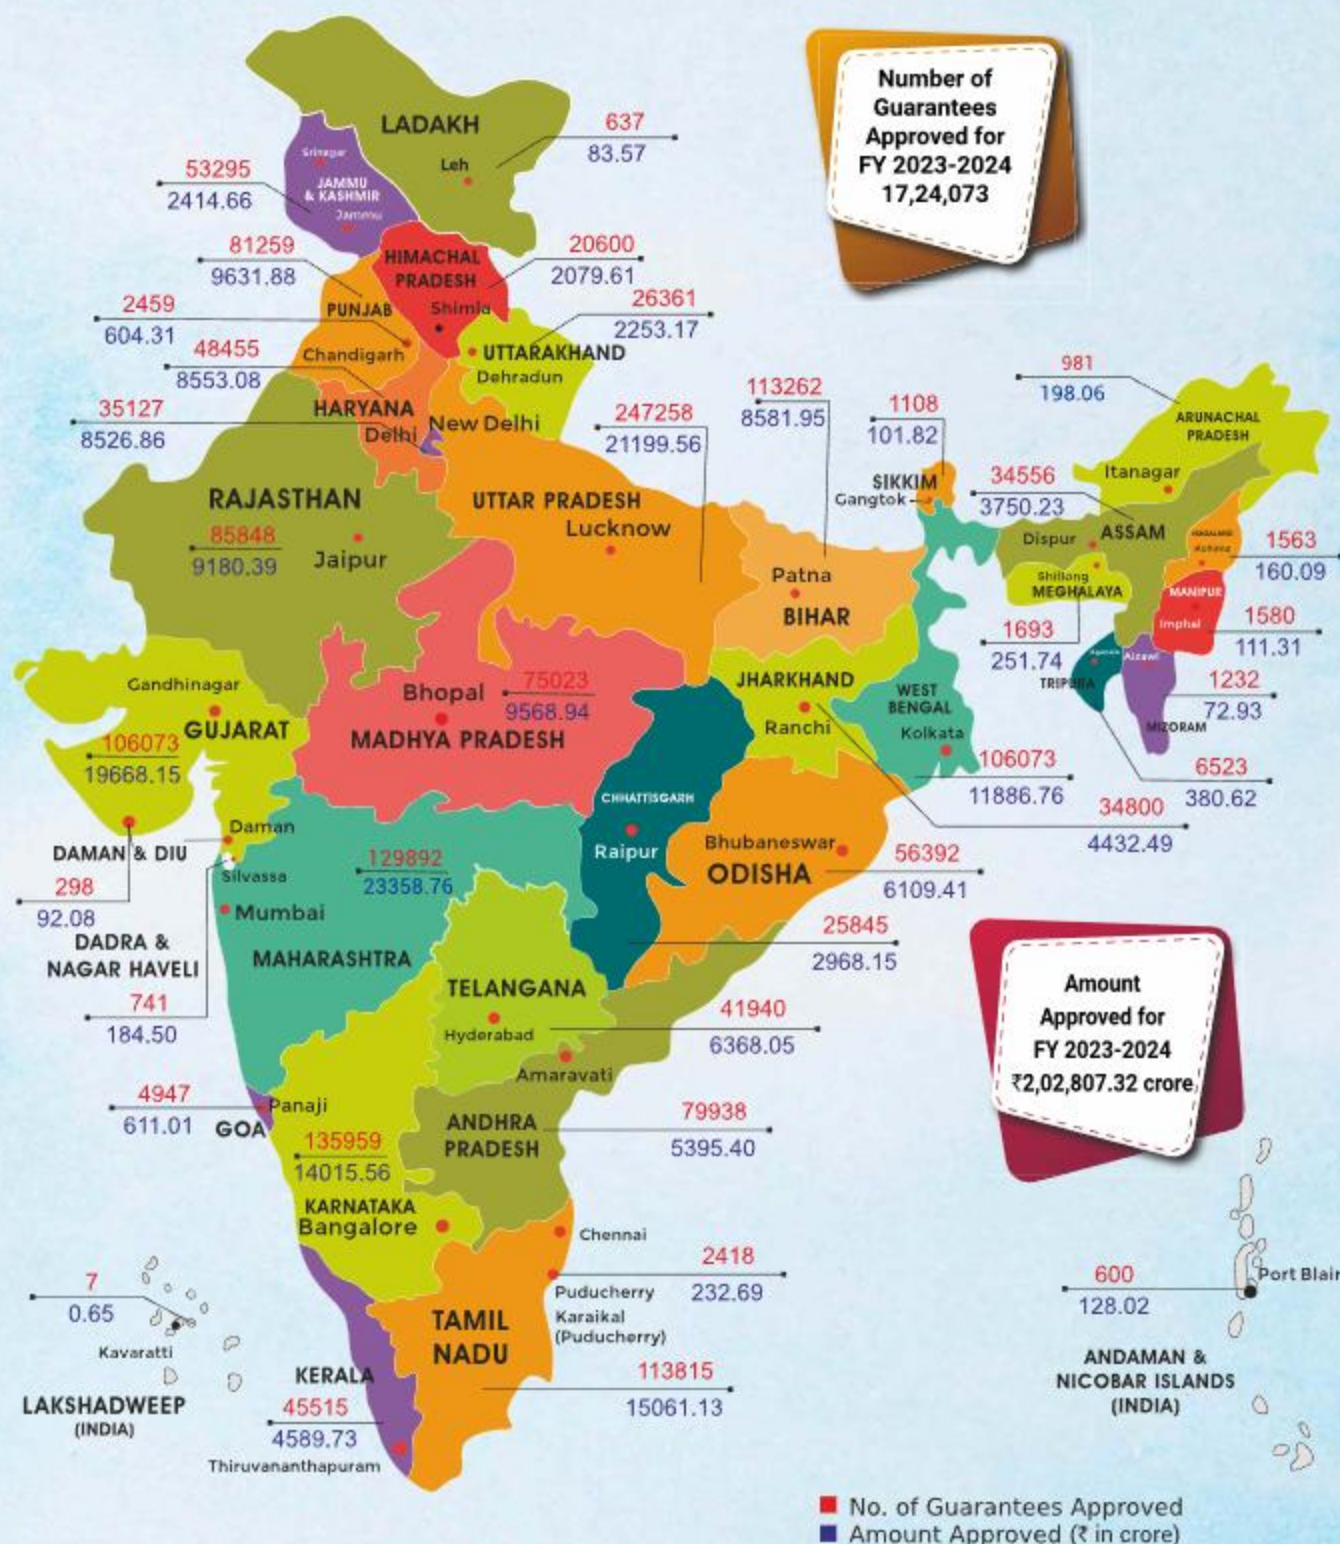

CGS-PMS (CREDIT GUARANTEE SCHEME FOR PM SVANIDHI):

The COVID-19 pandemic and consequent lockdowns had adversely impacted the livelihoods of street vendors. To support them, the Ministry of Housing and Urban Affairs (MoHUA), Government of India announced a scheme called "PM SVANidhi" (PM Street Vendor's AtmaNirbhar Nidhi) to provide credit for working capital to street vendors in urban areas to resume their business. The Scheme encouraged street vendors to formalize their businesses and adopt digital payment methods.

Furthermore, the Ministry of MSME implemented a scheme called "PM Vishwakarma" to provide collateral-free credit to craftspeople and artisans with a quantum of loan assistance of ₹300,000 with the first loan tranche that could be up to ₹100,000 and a second loan tranche that could be up to ₹200,000. The CGTMSE launched The Credit Guarantee Scheme for PM Vishwakarma, whereby guarantee coverage would be provided to eligible lending institutions to facilitate credit support to "Vishwakarmas".

12. Important developments during FY 2024:

During the year, many policy level modifications were carried out with an aim to strengthen both demand as well as supply side of the guarantee product. Some of the important modifications are listed below:

- CGTMSE has introduced 'Special Provision for the Informal Micro Enterprises (IME)' under Credit Guarantee Scheme. IMEs are those enterprises which are exempted from GST regime. With this special provision Member Lending Institutions are expected to lend more to this segment, which will help in bringing in more MSEs to formal lending channel.
- Reduction in the lock-in-period for loans up to ₹10 lakh & tenure up to 36 months from 18 months to 9 months
- Following modifications were made to CGS-II
 - ❖ New Registration criteria has been introduced for NBFCs viz., upto 3 years one category and above 3 years another to bring more NBFCs into CGTMSE's fold.
 - ❖ Risk based pricing methodology has been introduced.

- Credit Guarantee Scheme for PM Vishwakarma was introduced during November 2023
- Increase in ceiling of guarantee for RRBs & SFCs from ₹50 lakh to ₹200 lakh
- MSE borrowers situated in Identified Credit Deficient Districts (ICDDs) by RBI gets 10% reduction in standard rate of guarantee fee and the extent of guarantee coverage is increased by 5% over and above the applicable guarantee coverage.
- Taking into account the alignment of interest of Women's World Banking, Inc. (WWB), CGTMSE has collaborated with WWB to catalyze institutional credit to Women entrepreneurs.
- CGTMSE took initiative to collaborate with various State Governments for state specific guarantees with an aim to make Guarantee mechanism as an attractive tool to facilitate credit dispensation in the respective States. Under the mechanism, while CGTMSE will continue to provide guarantee coverage as applicable under its CGS-I & II Schemes, additional guarantee coverage ranging from 10%-25% would be provided on behalf of the State Government out of the fund placed by the State Government with CGTMSE. As on March 31, 2023, MoU has been signed with Seven State Governments viz. State Government of Tamil Nadu, Assam, Manipur, Meghalaya, West Bengal, Goa and Odisha. Further, MoU signed with State Government of Rajasthan for reimbursement of fee for MSEs promoted by SC/ST Entrepreneurs native of Rajasthan.

Other developments / Initiatives:

The 35th ACSIC Conference was held during August 7-11, 2023 at Ulaanbaatar, Mongolia by Credit Guarantee Fund of Mongolia (CGFM). The

Theme for the conference is "Looking ahead: Fostering Green Financing for Sustainable Development". CEO, DGM, CGTMSE attended the Conference and shared/ exchanged their insights, deep knowledge and experiences. With digitalisation and innovation, the ACSIC members focused to bring about a transformation in the bank's lending to MSE sector by providing overwhelming support and incorporating confidence building measures in its operations to make collateral-free lending to MSEs, the most preferred and profitable option.

13. Constant interactions with MLIs:

- In order to deepen and widen the reach of the Scheme, CGTMSE conducted and attended various workshops / training sessions for the bank officials of its Member Lending Institutions at various levels including Circle Office, Regional Office, Staff Training Centers, etc., to disseminate information on the revamped Credit Guarantee Scheme (CGS) of CGTMSE and also to impress upon the MLI to make use of the special guarantee schemes launched to enable eligible micro and small enterprises to avail the benefit of these Schemes. During FY 2024, CGTMSE participated in 94 Seminars/ Workshops/ Webinars/ Bankers' meet and has conducted 28 Business Development Meetings and made presentations to sensitize bank officials/ small enterprises on the various aspects of the Credit Guarantee Scheme.

14. Overall impact of CGS operations
